Off-University

www.off-university.com

- We are a group of about 50 persecuted and/or exiled scientists, enthusiastic learners and dreamers of a different education system. Some of us have come to Germany from Turkey as a result of the recent political developments; others have been working here for years.
- *Off-University* is a registered non-profit association under German Law since May 2017.
- Located in Germany, *Off-University* offers researchers and students with limited opportunity to move around freely an occasion to participate in online education. *Off-University* combines the good old ideal of academic freedom with state of the art digital communication and collaboration opportunities.
- *Off-University's* mission is based on its commitment to peace in the world and to living together in diversity. It therefore seeks to develop emancipatory education-research activities that are less hierarchial and more democratic.
